

Dear NVMS member,

As we look back on an exciting year, we're grateful for the moments we have shared with all of you. In this newsletter, we have gathered the latest updates, plus details on upcoming conferences and meetings you won't want to miss. Wishing you a wonderful holiday season and a fantastic start to 2025! 🎄 🍷

We had a fantastic time at the NVMS Fall Meeting at Danone

A big thank you to everyone who joined us for the NVMS Fall Meeting 2024 at Danone! We kicked off with an inspiring keynote by Michiel Vermeulen on early embryogenesis, followed by exciting research presentations from across the mass spec community. The day concluded with a panel discussion on AI and ethics in research, followed by awarding of two prizes to the presenters of two outstanding posters (Andrea Istrati (VU Amsterdam) and Cynthia Kelley (Utrecht University)) organized by young-NVMS sponsored by our annual sponsors!

A special thanks to our host, Danone, for making this event possible, and to all our sponsors, speakers, and attendees for contributing to its success. We cannot wait for more great moments ahead!

Check here for [more impressions](#), the [book of abstracts](#), and the news release from [Danone Research & Innovation](#).

The location for the next NVMS Spring Meeting will be announced in early 2025!

New NVMS board member: Berta Cillero-Pastor!

During the Extra General Assembly on 11th November, we appointed our new NVMS board member: Berta Cillero-Pastor! Berta is an Associate Professor at Maastricht University's MERLN Institute and M4i, where she leads the Spatial Omics for Regenerative Medicine group. With her extensive expertise in management, international collaborations, mentoring, and advancing diversity, we are excited to have her join us as our new NVMS Secretary!

A heartfelt thank you to Isabelle Kohler for her years of dedication and hard work in bringing together the mass spec community in the Netherlands!

Welcome aboard, Berta!

Join the young-NVMS meeting on 21 February!

Have you ever followed a presentation that was more effective at inducing sleep than conveying the right scientific message? We've all been there, and it's time for a change... And change starts with the youngsters!

The young-NVMS board is working hard behind the scenes to organize a workshop dedicated to transforming how young scientists present their work. Goal is to provide the participants with insights from experts on the art of communication,

ensuring they leave the workshop with the tools to turn complex data into compelling stories that captivate the audiences, by conveying research clearly, and engagingly!

-> Stay tuned for updates on our upcoming workshop through our [website](#) and [LinkedIn!](#)

NVMS Conference Fund open for applications: deadline 1st February 2025

The NVMS Conference Fund supports early-career NVMS members from Dutch research institutions by helping cover the costs of active participation in international conferences, workshops, or schools.

For details on eligibility, selection criteria, and how to apply, please visit: [NVMS Conference Fund](#)

We look forward to receiving your applications!

Join the vibrant young-NVMS community!

The young NVMS offers a platform for emerging mass spectrometrists to connect and exchange ideas with peers. We organize events throughout the year, making it easy to network and form new friendships. Register [here](#) to become a member of the young-NVMS community. Stay connected via [LinkedIn!](#)

Thanks to our current sponsors: MSVision, MSWil, dsm-firmenich, Waters and Bruker

Would you like to become a sponsor too? Please have a look at our [website](#) or contact Bram Snijders at treasurer@nvms.nl.

Are you looking for a new challenge?

Check out the current job opportunities [here](#).

Upcoming Workshops, Symposia and Conferences (2025)

Feb 21	young-NVMS meeting (check our website for updates!), The Netherlands
Mar 4–7	DGMS 2025 , Göttingen, Germany
Jun 1–5	ASMS , Baltimore, Maryland/USA
Jun 15–19	HPLC , Bruges, Belgium
Jun 16–20	EUPA , Saint-Malo, France
Jul 6–11	MSBM summer school , Dubrovnik, Croatia
Jul 20–23	Advancing Mass Spectrometry , Atlanta (USA)
Aug 31–Sep 4	Euroanalysis , Barcelona, Spain
Sep 21–26	MSACL , Montréal, Canada
Oct 1–3	Mass Spectrometry and Microscopy , Utrecht, The Netherlands
Nov 9–13	HUPO , Toronto, Canada
Nov 11–13	PEGS Europe , Lisbon, Portugal
Dec 3–6	Lake Louise Tandem-MS workshop , Alberta, Canada

**Best wishes,
Martin Pabst**

PR, Dutch Society for Mass Spectrometry

On behalf of the Dutch Society for Mass Spectrometry
